

2AM – Serenity

by 2AM

Verse 1

Good morning Misery
You spent the night with me
Why don't you stay in bed
So I can get you off my head

Where is that friend of mine
I haven't seen a long, long time
Finding her is all I need
Who can help me to succeed?

Chorus

Trying to find Serenity
Oh, oh, oh, can't you see
I need her so desperately
Now tell me, where is she

Verse 2

I need better company
I'm looking for Serenity
The doorbell rings and luckily
She's standing right in front of me

Hey darling, welcome home
I can see a gentle gloam
Stay with me, clear me head
Misery has to leave my bed

Chorus

Trying to find Serenity
Oh, oh, oh, can't you see
I need her so desperately
Now tell me, where is she-e-e-e-e-e

Repeat Chorus
