

2AM – Chase the Sun

by 2AM

Verse 1

Fog swallows the sun
No sky, just white and gray
The light is somewhere out there
But I can't see it

[Instrumental]

White Mist covers the lake
No sound, just cold and damp
Delight beyond the clouds
But I can't feel it

Pre-Chorus

Chasing after the sun
You seek the li-ight
Chasing after the sun
You seek blue ski-ies

Chorus

Find the sun!
And let the light into your hea-art
Find the sun!
Close your eyes and feel the heat
upon your skin
Close your eyes and feel the heat
Find the sun, oh, find the sun

Verse 2

Far away from the sun
No colours anymore
Just sixty shades of gray
I'm waiting for that day...

[Instrumental]

Clouds wherever I go
My mood is getting low
But on a mountain high
I'll find that golden shi-ine

Pre-Chorus

You've got to chase the sun
And seek the li-ight
You've got to chase the sun
And seek blue ski-ies

Chorus

Find the sun!
And let the light into your hea-art
Oh-oh

Repeat Chorus

Repeat Chorus

Outro

Close your eyes and feel the heat
Find the sun, oh, find the suuun
